ROBERT BOSCH POWER TOOLS GMBH J475 CLOTH SANDING ROLL. FOR HAND SANDING

SKU: 3165140678636

J475 cloth sanding roll. For hand sanding

Categories: Accessories for BOSCH professional, Grinding and polishing

Product Features: Roll width mm: 38
Roll length m: 25
Grit: 60
Benefit HL (short): Excellent Finish
Performance Claim Text: Excellent Finish
(Version) Key RTB: Flexible cloth backing delivers high work surface quality
Specific RTB1: Full resin bonding provides impressive grain adhesion for reliable and continuous work
Specific RTB2: Backing material is easily torn to size
Specific RTB3: J-cloth backing material with semi-friable aluminium oxide grit for high flexibility, durability and form accuracy
Material: Steel
Material: Aluminium
Material: Non-ferrous metals
Material: Cast iron
Product text, Accessories grey: 25 m
SOL Date: 01.07.2015
Novelty: no

Scope of delivery:
1 ST J475 cloth sanding roll. For hand sanding
|

PRODUCT DESCRIPTION

The J475 Best for Metal produces an excellent finish when keying and sanding metal surfaces. It delivers

a high workpiece surface quality finish due to its flexible cloth backing. The sheet's full resin bonding provides an impressive abrasive grain adhesion for reliable and continuous work. Furthermore, its backing material is easily torn for easy resizing in manual applications. It is very adaptable to contours and roundings and is intended for general sanding of metal, carbon steel, mild steel, stainless steel, titanium, aluminium, non-ferrous metals and cast iron surfaces. It is also ideal for deburring and rust removal on metal as well as keying sealing surfaces. This sheet is made from J-cloth, coated with tough semi-friable aluminium oxide grit for high flexibility, durability and form accuracy. It features an anti-static closed coating for optimal sanding results. Furthermore, the grit is bonded using fully synthetic resin for wear resistance in heavy-duty applications.
