ROBERT BOSCH POWER TOOLS GMBH JIGSAW BLADE T 121 AF. FOR JIGSAWS

SKU: 3165140596947

Jigsaw blade T 121 AF. For jigsaws

Categories: Accessories for BOSCH professional, Saws

Product Features: Sheet metals, perforated sheet metals, from [mm]: 1
Sheet metals, perforated sheet metals, to [mm]: 3
Sheet metals, perforated sheet metals [mm]: 1-3
Material: BIM
Tooth design: wavy set, milled
Total length [mm]: 92
Tooth spacing [mm]: 1.2
Areas of application: thin sheet metals (1-3 mm)
Recommended min. material thickness [mm]: 1
Recommended max. material thickness [mm]: 3
Progressive: yes
Clearing position: no
Type: T 121 AF
Milled teeth: no
Ground teeth: no
Pointed teeth: no
TC-tipped: no
RIFF: no
Side set: no
Wavy set: no
Serrated edge: no
Ground teeth and taper ground: no
Rasp: no
Benefit HL (short): Fast Cuts in Perforated Sheet Metal
Performance Claim Text: Fast Cuts
(Version) Key RTB: Patented back-taper body

1 ST Jigsaw blade T 121 AF. For jigsaws |

PRODUCT DESCRIPTION

The T 121 AF Speed for Metal Jigsaw Blade delivers fast straight cuts in metal. Its patented back-taper body and thin kerf design provide unrivalled cutting speed. Additionally, a patented tooth geometry and a combination of aggressive and robust teeth further increase cutting speeds. The blades milled, wavy-set teeth are designed for cutting metal sheet. Made from BIM (bi-metal), its fully hardened HSS (high-speed steel) tooth strip is bonded with its highly elastic HCS (high carbon steel) body, which reduces the risk of breakage and makes the blade breakproof. Furthermore, it provides both sufficient hardness and the required flexibility to cut perforated metal sheets made of standard-strength steel. It is equipped with a very fine tooth pitch (1.2 mm) and cuts thin metal sheets with 1-3 mm thickness.
