3M PAINT SPRAY MASK 4255+ EN 405:2001 + A1:2009 FFA2 P3 RD PACKED SINGLY

SKU: 04054596256309

1,00 ST Paint spray mask 4255+ EN 405:2001 + A1:2009 FFA2 P3 RD packed singly

---

Categories: Gas vapour masks, Head, eye, respiratory protection and ear defenders

Product Features: Type: Packed singly
Brand: 3M
PPE category: III
Datasheet

Scope of delivery:
1,00 ST Paint spray mask 4255+ EN 405:2001 + A1:2009 FFA2 P3 RD packed singly |

PRODUCT DESCRIPTION

4-point head harness
- Exhale valve
- Disposable mask Offers protection against: Organic gases
- Vapours with a boiling point above 65 °C and a concentration of up to 5000 ppm or up to 30 times the OEL value, whichever is lower
- Protection against fine dust to 10 times the limit value
- Filter class: EN 405:2001 + A1:2009 FFA2P3RD
- Application: For paint spraying, work with varnishes and adhesives, use of pesticides Further technical information:
- Protection level: FFA2 P3 RD
- Property: Up to 10 times the limit value
- Standard: EN 405:2001 + A1:2009 Information on the unavailability of article no. 4000 370 672 (4255*) and its alternatives. Production of the 3M Respirator 4255+ is currently affected by a complication with the raw material. Our team is working on a solution with the highest priority, but unfortunately we are presently unable to give an exact delivery time. Please accept our apologies for any inconvenience this may cause. The affected SAP ID is: 3M SAP ID: 7100113101, 3M Respirator 4255+ (A2P3) - 4000 370 672 As a temporary measure, please consider other models of the 4000+ respirator series. Possible alternative: 3M Respirator 4277+ ABE1P3 SAP ID: 7100113102 - 4000 399 981 Procured product The 4277+ provides ABE1P3 protection, i.e. the same protection against organic vapours and particles as the

4255+, plus additional protection against inorganic and acid gases. However, please note that the protection class against organic vapours is lower (class 1 instead of class 2 so the respirator may need to be changed more frequently. Possible alternative: 3M Respirator 4279+ ABEK1P3 SAP ID: 7100113103 - 4000 370 671 The 4279+ provides ABEK1P3 protection, i.e. the same protection against organic vapours and particles as the 4255+, plus additional protection against inorganic, acid gases and ammonia. However, please note that the protection class against organic vapours is lower (class 1 instead of class 2 so the respirator may need to be changed more frequently. Possible alternative: 3M Respirator 4251+ A1P2 SAP ID: 7100113098, 4251+ - 4000 370 670 Stock The 4251+ offers A1P2 protection and can therefore only be considered as an alternative if P2 protection against particles is sufficient and P3 protection is not required. Please note that P3 protection may be required by law for certain hazards - please check your local regulations. The protection class against organic vapours is lower (class 1 instead of class 2 so the respirator may need to be changed more frequently. In addition, there are a number of other 3M reusable respirators (half-face masks with replaceable filters) that may be suitable.

PRODUCT DATASHEET LEGAL NOTE

Please note that the information on this datasheet is provided without warranty and is intended only as non-binding information about the product. Any liability for damages or losses that may arise from the use of this information is excluded. We therefore recommend that you verify the information on this datasheet with other sources before making any decisions based on this information.
