BENNING CLAMP-ON AMMETER MULTIMETER CM 1-4 0.1 A-200 A AC CAT IV 600/III 1000 V

SKU: 4014651446861

Clamp-on ammeter multimeter CM 1-4 0.1 A-200 A AC CAT IV 600/III 1000 V

Categories: [Clamp-on ammeters](#), [Measuring and testers for electrical installation](#)

Product Features: Measuring technique:

TRUE RMS

Brand: BENNING

Measurement category: CAT IV 600/III 1000 V

Measuring range: 0.1 A-200 A AC

[Datasheet](#)

Scope of delivery:

1,00 ST Clamp-on ammeter multimeter CM 1-4 0.1 A-200 A AC CAT IV 600/III 1000 V |

PRODUCT DESCRIPTION

4-part illuminated LCD display (9,999 pixels)

- With open clamp-on ammeter, LED level display, phase and rotary field testing
- Phase-sequence testing via green LEDs (right/left)
- Voltage display from 50 V, even works with empty batteries
- Signal tone during voltage measurement, can be disabled
- One-hand operation for voltage measurement on sockets (19 mm)
- Automatic range selection
- Measured value memory (HOLD)
- Self-test facility
- LED measuring point lighting
- Measurement category CAT IV 600 V, CAT III 1000 V Measuring ranges: Alternating current (100 mA-200 A) voltage (6.0 V-1,000 V) resistance (1 - 50 k) phase-sequence indicator, continuity testing, single-pole external conductor testing (phase polarity testing) Further technical information:
 - Width: 57mm
 - Length: 220mm
 - Opening of pliers: 16mm
 - Height: 35mm

- Subject to audit: Yes Scope of supply: Supplied with belt holster, measuring cables, rubber-coated contact tip protection, cover caps CAT III/IV contact tip enlargement (\varnothing 4 mm batteries (2 x type AAA for replacement batteries see article no. 4000 901 810 Note on the disposal of batteries and rechargeable batteries As we sell batteries and rechargeable batteries and devices that contain batteries and rechargeable batteries, under the German Battery Act (BattG) we are obliged to draw your attention to the following: The symbol of the waste bin with the X through it on batteries and rechargeable batteries means that they must not be disposed of in household waste after consumption. If batteries or rechargeable batteries contain mercury, cadmium or lead, you will find the chemical symbol (Hg, Cd or Pb) under the symbol of the waste bin with the X through it. Every user of batteries or rechargeable batteries is legally obliged to return old batteries and rechargeable batteries. They can be returned, free of charge, to the retailer or another collection point near you. You can obtain the addresses of suitable collection points near you from your local government authority. In the case of batteries that contain more than 0.0005 percent by mass mercury, more than 0.002 percent by mass cadmium or more than 0.004 percent by mass lead, the chemical symbols of the respective harmful substance used are indicated under the waste bin symbol. The chemical symbols have the following meaning: Pb: Battery contains lead Cd: Battery contains cadmium Hg: Battery contains mercury
