## BENNING CLAMP-ON AMMETER MULTIMETER CM 2 100 MA-300 A AC, 10 MA-300 A DC CAT III 300 V

SKU: 4014651000810

Clamp-on ammeter multimeter CM 2 100 mA-300 A AC, 10 mA-300 A DC CAT III 300 V

**Categories:** [Clamp-on ammeters](#), [Measuring and testers for electrical installation](#)

**Product Features:** Measuring technique:

TRUE RMS

Brand: BENNING

Measurement category: CAT III 300 V

Measuring range: 100 mA-300 A AC, 10 mA-300 A DC

[Datasheet](#)

Scope of delivery:

1,00 ST Clamp-on ammeter multimeter CM 2 100 mA-300 A AC, 10 mA-300 A DC CAT III 300 V |

## PRODUCT DESCRIPTION

3½-digit LCD display (3999 points)

- Ideal for measuring smaller currents
- Polarity and battery low voltage indicator
- Automatic range switching/switch-off
- Measured value and maximum value acquisition
- Relative measurements (differential measurements)
- Continuity testing
- Over-voltage category 300 V CAT III / 600 V CAT II Measuring ranges: Direct voltage: 0.1 mV-600 V, alternating voltage: 1 mV-600 V, direct current: 10 mA-300 A, alternating current: 100 mA-300 A

Resistance: 0.1 -40 M Further technical information:

- Width: 66mm
- Length: 192mm
- Opening of pliers: 25mm
- Height: 27mm Supplied with batteries (2 x type AAA measuring leads, and protective case, replacement batteries see article no. 4000 901 810 Note on the disposal of batteries and rechargeable batteries As we

sell batteries and rechargeable batteries and devices that contain batteries and rechargeable batteries, under the German Battery Act (BattG) we are obliged to draw your attention to the following: The symbol of the waste bin with the X through it on batteries and rechargeable batteries means that they must not be disposed of in household waste after consumption. If batteries or rechargeable batteries contain mercury, cadmium or lead, you will find the chemical symbol (Hg, Cd or Pb) under the symbol of the waste bin with the X through it. Every user of batteries or rechargeable batteries is legally obliged to return old batteries and rechargeable batteries. They can be returned, free of charge, to the retailer or another collection point near you. You can obtain the addresses of suitable collection points near you from your local government authority. In the case of batteries that contain more than 0.0005 percent by mass mercury, more than 0.002 percent by mass cadmium or more than 0.004 percent by mass lead, the chemical symbols of the respective harmful substance used are indicated under the waste bin symbol. The chemical symbols have the following meaning: Pb: Battery contains lead Cd: Battery contains cadmium Hg: Battery contains mercury

#### PRODUCT DATASHEET LEGAL NOTE

Please note that the information on this datasheet is provided without warranty and is intended only as non-binding information about the product. Any liability for damages or losses that may arise from the use of this information is excluded. We therefore recommend that you verify the information on this datasheet with other sources before making any decisions based on this information. Additional information about the product can be found on our website.
