BENNING MULTIMETER MM 1-3 0.1 MV-750 V AC, 0.1 MV-1000 V DC RMS

SKU: 4014650440839

Multimeter MM 1-3 0.1 mV-750 V AC, 0.1 mV-1000 V DC RMS

Categories: [Measuring and testers for electrical installation](#), [Multimeters and accessories](#)

Product Features: Measuring technique:

RMS

Brand: BENNING

Nominal voltage range: 0.1 mV-750 V AC, 0.1 mV-1,000 V DC

Measurement category: CAT III 600 V

[Datasheet](#)

Scope of delivery:

1,00 ST Multimeter MM 1-3 0.1 mV-750 V AC, 0.1 mV-1000 V DC RMS |

PRODUCT DESCRIPTION

With 3½-digit LCD display (2,000 points) volt sensor and temperature measurement

- With battery low voltage indicator
- Automatic and manual range selection
- Volt sensor for non-contact detection of the phase voltage (optical/acoustic)
- Localises interruptions, e.g. in exposed wires, cable drums
- Continuity and diode testing
- Single-pole phase testing
- Automatic switch-off
- With integrated measured value memory, maximum/minimum value memory (MAX/MIN)
- CAT III 600 V, CAT II 1000 V Measuring ranges: Direct voltage: 0.1 mV-1,000 V, alternating voltage: 0.1 mV-750 V, current: 1 mA-10 A, resistance: 0.1 -20 M, capacitance: 1 pF-2 mF, frequency: 1 Hz-20 MHz, temperature: -20 °C to +800 °C Further technical information:
- Width: 74mm
- Length: 156mm
- Height: 44mm Supplied with batteries (2 x 1.5 type AAA) measuring leads, instrument case, wire temperature probe with adapter, replacement batteries, see article no. 4000 901 810 Note on the

disposal of batteries and rechargeable batteries As we sell batteries and rechargeable batteries and devices that contain batteries and rechargeable batteries, under the German Battery Act (BattG) we are obliged to draw your attention to the following: The symbol of the waste bin with the X through it on batteries and rechargeable batteries means that they must not be disposed of in household waste after consumption. If batteries or rechargeable batteries contain mercury, cadmium or lead, you will find the chemical symbol (Hg, Cd or Pb) under the symbol of the waste bin with the X through it. Every user of batteries or rechargeable batteries is legally obliged to return old batteries and rechargeable batteries. They can be returned, free of charge, to the retailer or another collection point near you. You can obtain the addresses of suitable collection points near you from your local government authority. In the case of batteries that contain more than 0.0005 percent by mass mercury, more than 0.002 percent by mass cadmium or more than 0.004 percent by mass lead, the chemical symbols of the respective harmful substance used are indicated under the waste bin symbol. The chemical symbols have the following meaning: Pb: Battery contains lead Cd: Battery contains cadmium Hg: Battery contains mercury

PRODUCT DATASHEET LEGAL NOTE

Please note that the information on this datasheet is provided without warranty and is intended only as non-binding information about the product. Any liability for damages or losses that may arise from the use of this information is excluded. We therefore recommend that you verify the information on this datasheet with other sources before making any decisions based on this information. Additional information about the product can be found on our website.
