BENNING VOLTAGE/CONTINUITY TESTER DUSPOL® EXPERT 12-1000 V AC/DC CAT IV 600V/CAT III 1000 V

SKU: 4014651502628

Voltage/continuity tester DUSPOL® expert 12-1000 V AC/DC CAT IV 600V/CAT III 1000 V

Categories: [Measuring and testers for electrical installation](#), [Voltage and continuity tester](#)

Product Features: Nominal voltage range: 12-1000 V AC/DC
Brand: BENNING
Measurement category: CAT IV 600V/CAT III 1000 V
Model: 050262
[Datasheet](#)

Scope of delivery:
1,00 ST Voltage/continuity tester DUSPOL® expert 12-1000 V AC/DC CAT IV 600V/CAT III 1000 V |

PRODUCT DESCRIPTION

- Voltage from 12 V-1,000 V AC/DC (LED)
- Optical, acoustic continuity testing up to 100 k (yellow LED)
- Phase sequence- (green LED phase test (red LED)
- Polarity test (LED)
- Direct display without push-button actuation (high-resistance)
- Load switching via push-button (low-resistance)
- Deliberate tripping of the residual current circuit breaker
- Vibration alarm
- Measuring point lighting
- Cable break detector
- Protection class IP65 (dust-proof/water-proof)
- Housing with rubber-coated grip surface
- CAT IV 600 V, CAT III 1000 V
- (Voltage display from 50 V, even with empty batteries!)

- Approved to DIN EN 61243-3, VDE 0682-401 Further technical information:
- Working principle: Two-pole
- Protection class: IP65
- Continuity testing: LED/buzzer Supplied with batteries (2 x 1.5 V micro-batteries, type AAA replacement batteries see article no. 4000 901 810 Note on the disposal of batteries and rechargeable batteries As we sell batteries and rechargeable batteries and devices that contain batteries and rechargeable batteries, under the German Battery Act (BattG we are obliged to draw your attention to the following: The symbol of the waste bin with the X through it on batteries and rechargeable batteries means that they must not be disposed on in household waste after consumption. If batteries or rechargeable batteries contain mercury, cadmium or lead, you will find the chemical symbol (Hg, Cd or Pb) under the symbol of the waste bin with the X through it. Every user of batteries or rechargeable batteries is legally obliged to return old batteries and rechargeable batteries. They can be returned, free of charge, to the retailer or another collection point near you. You can obtain the addresses of suitable collection points near you from your local government authority. In the case of batteries that contain more than 0.0005 percent by mass mercury, more than 0.002 percent by mass cadmium or more than 0.004 percent by mass lead, the chemical symbols of the respective harmful substance used are indicated under the waste bin symbol. The chemical symbols have the following meaning: Pb: Battery contains lead Cd: Battery contains cadmium Hg: Battery contains mercury
