BENNING VOLTAGE/CONTINUITY TESTER PROFIPOL®+ 12-690 V AC/DC CAT III 600V/CAT II 690 V

SKU: 4014651200234

Voltage/continuity tester PROFIPOL®+ 12-690 V AC/DC CAT III 600V/CAT II 690 V

Categories: [Measuring and testers for electrical installation](#), [Voltage and continuity tester](#)

Product Features: Nominal voltage range: 12-690 V AC/DC

Brand: BENNING

Measurement category: CAT III 600V/CAT II 690 V

Model: 020023

[Datasheet](#)

Scope of delivery:

1,00 ST Voltage/continuity tester
PROFIPOL®+ 12-690 V AC/DC CAT III
600V/CAT II 690 V |

PRODUCT DESCRIPTION

Voltage from 12 V-690 V AC/DC (LED)

- Display levels: 12, 24, 50, 120, 230, 400, 690 V AC/ DC, are completely operational if the batteries are flat or have been removed
- Audible and visual continuity testing up to 100 k (buzzer/ yellow -LED)
- One pin external conductor test (phase) (red LED)
- Polarity test (+/- LEDs)
- Contactless phase tester/ broken cable detector (yellow LED)
- Test handle lock for single-handed operation on sockets and for safe storage
- Reduced test current without FI/RCD tripping: Is CAT III 600 V, CAT II 690 V Further technical information:
- Working principle: Two-pole
- Protection class: IP54
- Continuity testing: LED/buzzer Supplied with batteries (2 x 1.5 V micro-batteries, type AAA replacement batteries see article no. 4000 901 810 Note on the disposal of batteries and rechargeable batteries As we sell batteries and rechargeable batteries and devices that contain batteries and rechargeable batteries,

under the German Battery Act (BattG) we are obliged to draw your attention to the following: The symbol of the waste bin with the X through it on batteries and rechargeable batteries means that they must not be disposed of in household waste after consumption. If batteries or rechargeable batteries contain mercury, cadmium or lead, you will find the chemical symbol (Hg, Cd or Pb) under the symbol of the waste bin with the X through it. Every user of batteries or rechargeable batteries is legally obliged to return old batteries and rechargeable batteries. They can be returned, free of charge, to the retailer or another collection point near you. You can obtain the addresses of suitable collection points near you from your local government authority. In the case of batteries that contain more than 0.0005 percent by mass mercury, more than 0.002 percent by mass cadmium or more than 0.004 percent by mass lead, the chemical symbols of the respective harmful substance used are indicated under the waste bin symbol. The chemical symbols have the following meaning: Pb: Battery contains lead Cd: Battery contains cadmium Hg: Battery contains mercury

PRODUCT DATASHEET LEGAL NOTE

Please note that the information on this datasheet is provided without warranty and is intended only as non-binding information about the product. Any liability for damages or losses that may arise from the use of this information is excluded. We therefore recommend that you verify the information on this datasheet with other sources before making any decisions based on this information. Additional information about the product can be found on our website.
