PRODUCT DESCRIPTION

Made from polyurethane
- For clamping sensitive workpieces
- With extremely powerful flat neodymium magnet , which is firmly pressed into the jaw and does not detach, even after lengthy use
- The magnetism does not reach the front clamping area
- Suitable for all vice types
- Special product benefits: The jaws are made of polyurethane. This very elastic, resistant and ageing resistant material returns to its original shape again after deformation through pressure Type PP (polyurethane prisms): Clamping of sensitive round and oval workpieces. The incorporated prisms in different sizes securely hold the workpieces Type PR (polyurethane groove): Clamping of sensitive workpieces of all kinds. The ribbing grips the surface of the workpieces without damaging them PU = 1 pair
