ELECTRIC ENGRAVER ARKOGRAF MAINS VOLTAGE 230 V FOR CONDUCTIVE METALS

SKU: 4054773009810

Electric engraver ARKOGRAF mains voltage
230 V for conductive metals

Categories: [Engraving and burning devices](#),
[Identifications and labelling](#)

Product Features: Average power:
Protective earthing 40 VA
Connector type: F
Application: For conductive metals
Packaging: In wooden box
Model: 70040

Scope of delivery:
1,00 ST Electric engraver ARKOGRAF mains
voltage 230 V for conductive metals |

PRODUCT DESCRIPTION

Suited for the labelling of all electrically-conducting metals

- By the replugging of the write stylus, 6 different thickness values for the labelling are achieved
- Even the hardest steel is labelled with the special needles Further technical information:
- Output voltage: 2-8V
- Mains voltage: 230V
- Subject to audit: Yes Scope of supply: Transformer in wooden box
- Box size 240 x 240 x 110 mm
- With cable and plug, write stylus
- Grounding plate and 3 recorder electrodes 1.2 x 25 mm

PRODUCT DATASHEET LEGAL NOTE

Please note that the information on this datasheet is provided without warranty and is intended only as non-binding information about the product. Any liability for damages or losses that may arise from the use of this information is excluded. We therefore recommend that you verify the information on this datasheet with other sources before making any decisions based on this information.
