ERSA SOLDERING STATION ANALOG 60 150-450 DEGC 60 W HEAT-UP PERIOD APPROX 60 S

SKU: 4003008054866

1,00 ST Soldering station ANALOG 60 150-450
degC 60 W heat-up period approx 60 s

Categories: [Soldering](#), [Soldering stations](#)

Product Features: Output: 60 W
Brand: ERSA

Scope of delivery:
1,00 ST Soldering station ANALOG 60 150-450
degC 60 W heat-up period approx 60 s |

PRODUCT DESCRIPTION

With durable ERSADUR long-life soldering tip

- Chisel-shaped, straight
- 2.2 mm wide
- Electronically temperature-controlled soldering station with RESISTRONIC temperature control
- Temperature is measured on the heater and controlled by precision electronics
- Heater with PTC behaviour
- Potential equalisation bushing
- Internally heated ERSADUR long-life soldering tip with twist protection
- Stand also serves as a tip holder
- Connection cable with plug
- Soldering iron data: 60 W (at 350 °C heat-up period: 60 s, weight: 60 g (without supply line safety-low voltage: Approx. 24 V VDE/GS-certified Further technical information:
 - Heat-up period: 60s
 - Temperature range: 150-450°C
 - Input supply voltage: 230V

PRODUCT DATASHEET LEGAL NOTE

Please note that the information on this datasheet is provided without warranty and is intended only as non-binding information about the product. Any liability for damages or losses that may arise from the use of this information is excluded. We therefore recommend that you verify the information on this datasheet with other sources before making any decisions based on this information. Additional information about the product can be found on our website.
