LASERLINER NOISE LEVEL METER SOUNDTEST MASTER WITH INTEGRATED LONG-TERM MEMORY 6 X DEPTHYPE AAA ALKALI 350 G

SKU: 4021563676330

Noise level meter SoundTest Master with integrated long-term memory 6 x depthype AAA alkali 350 g

Categories: [Head, eye, respiratory protection and ear defenders](#), [Noise measuring devices](#)

Product Features: Weight: 350 g
Battery life: 6x type AAA alkali
Brand: LASERLINER

Scope of delivery:
1,00 ST Noise level meter SoundTest Master with integrated long-term memory 6 x depthype AAA alkali 350 g |

PRODUCT DESCRIPTION

The sound level meter is used to measure noise levels with integrated long-term memory, measurement of noise levels with frequency weighting filter based on the standard curves dB (A dB (C)

- The device has the option of manually selecting a measuring range as well as automatic range detection
- Illuminated, clear display, analogue outlets: DC and AC as well as software for display on the PC are included Further technical information:

- Type: With integrated long-term memory Scope of supply: SoundTest master, including carry case and batteries Note on the disposal of batteries and rechargeable batteries As we sell batteries and rechargeable batteries and devices that contain batteries and rechargeable batteries, under the German Battery Act (BattG we are obliged to draw your attention to the following: The symbol of the waste bin with the X through it on batteries and rechargeable batteries means that they must not be disposed on in household waste after consumption. If batteries or rechargeable batteries contain mercury, cadmium or lead, you will find the chemical symbol (Hg, Cd or Pb) under the symbol of the waste bin with the X through it. Every user of batteries or rechargeable batteries is legally obliged to return old batteries and rechargeable batteries. They can be returned, free of charge, to the retailer or another collection point near you. You can obtain the addresses of suitable collection points near you from your local government authority. In the case of batteries that contain more than 0.0005 percent by mass mercury, more than 0.002 percent by mass cadmium or more than 0.004 percent by mass lead, the chemical

symbols of the respective harmful substance used are indicated under the waste bin symbol. The chemical symbols have the following meaning: Pb: Battery contains lead Cd: Battery contains cadmium Hg: Battery contains mercury
