PRODUCT DESCRIPTION

With Optrel respirator system

- Combination of e3000X respirator with mountain-breeze odour filter (class TH3) are ideal companions for numerous operations
 - Offers protection of the respiratory tract from smoke, aerosols and dust
 - Individually adjustable air distribution, up to 20 % of the air of the fresh air system can be directed into the frontal area for additional cooling by means of a rotary switch
 - Easily replaceable DIN8 visor expands the system to offer perfect protection for efficient plasma cutting
 - Approx 495 g Scope of supply: Incl. transport bag, e3000X, Clearmaxx PAPR grinding helmet, belt clip
- Note on the disposal of batteries and rechargeable batteries As we sell batteries and rechargeable batteries and devices that contain batteries and rechargeable batteries, under the German Battery Act (BattG) we are obliged to draw your attention to the following: The symbol of the waste bin with the X through it on batteries and rechargeable batteries means that they must not be disposed of in household waste after consumption. If batteries or rechargeable batteries contain mercury, cadmium or

lead, you will find the chemical symbol (Hg, Cd or Pb) under the symbol of the waste bin with the X through it. Every user of batteries or rechargeable batteries is legally obliged to return old batteries and rechargeable batteries. They can be returned, free of charge, to the retailer or another collection point near you. You can obtain the addresses of suitable collection points near you from your local government authority. In the case of batteries that contain more than 0.0005 percent by mass mercury, more than 0.002 percent by mass cadmium or more than 0.004 percent by mass lead, the chemical symbols of the respective harmful substance used are indicated under the waste bin symbol. The chemical symbols have the following meaning: Pb: Battery contains lead Cd: Battery contains cadmium Hg: Battery contains mercury
