OPTREL WELDING HELMET OPTREL E684 CONTINUOUS PROTECTION STAGE AREA 90 X 110 MM DIN 5-13

SKU: 7640429870421

Welding helmet Optrel e684 continuous protection stage area 90 x 110 mm DIN 5-13

Categories: [Head, eye, respiratory protection and ear defenders](#), [Welding helmets and accessories](#)

Product Features: Field of vision: 90 x 110 mm

Welding types: Electric arc welding/cutting processes

Colour: Varnished silver

Brand: OPTREL

Type: Stepless shade level range

Standard: DIN 5-13

PPE category: III

Scope of delivery:

1,00 ST Welding helmet Optrel e684 continuous protection stage area 90 x 110 mm DIN 5-13 |

PRODUCT DESCRIPTION

The optrel® e684 provides the perfect welding protection when joining aluminium, chrome-nickel alloys, special metals and steel

- With the stepless protection shade range from (shade level) SL 5 to SL 13, the e684 is suitable for all types of arc welding and cutting processes
- Classification:1/1/1/1 Incorrect welding can be the difference between life and death under certain circumstances
- Having the perfect welding helmet is therefore all the more important
- The helmet makes welding work safer, more efficient, more precise and more comfortable
- Only the best is good enough for this
- Don't settle for any less
- The e684 model is a true partner for you, particularly in the areas of vehicle and rail vehicle construction, chemical, container, machinery and plant construction, pipeline construction and

shipbuilding. Less is not enough! Note on the disposal of batteries and rechargeable batteries As we sell batteries and rechargeable batteries and devices that contain batteries and rechargeable batteries, under the German Battery Act (BattG) we are obliged to draw your attention to the following: The symbol of the waste bin with the X through it on batteries and rechargeable batteries means that they must not be disposed of in household waste after consumption. If batteries or rechargeable batteries contain mercury, cadmium or lead, you will find the chemical symbol (Hg, Cd or Pb) under the symbol of the waste bin with the X through it. Every user of batteries or rechargeable batteries is legally obliged to return old batteries and rechargeable batteries. They can be returned, free of charge, to the retailer or another collection point near you. You can obtain the addresses of suitable collection points near you from your local government authority. In the case of batteries that contain more than 0.0005 percent by mass mercury, more than 0.002 percent by mass cadmium or more than 0.004 percent by mass lead, the chemical symbols of the respective harmful substance used are indicated under the waste bin symbol. The chemical symbols have the following meaning: Pb: Battery contains lead Cd: Battery contains cadmium Hg: Battery contains mercury
