PROMAT LED TORCH 300 LM LI-ION

SKU: 4015448720065

LED torch 300 lm Li-ion

Categories: [Lighting](#), [Torches](#)

Product Features: Battery voltage: 3.7 V
Rechargeable battery: Li-ion
Battery capacity: 2200 mAh
Light output: 300 lm
Bulb life: 30 h
Length: 225 mm
Fitted illuminant: SMD LED
Brand: PROMAT

Scope of delivery:
1,00 ST LED torch 300 lm Li-ion |

PRODUCT DESCRIPTION

Folding, with magnetic base, made of ABS plastic

- Flexible application thanks to the hook attached to the lamp head
- Powerful 6x 0.5 W SMD LEDs

Supplied with USB-A plug, DC power rechargeable battery and 12 V car adapter

Note on the disposal of batteries and rechargeable batteries

As we sell batteries and rechargeable batteries and devices that contain batteries and rechargeable batteries, under the German Battery Act (BattG) we are obliged to draw your attention to the following: The symbol of the waste bin with the X through it on batteries and rechargeable batteries means that they must not be disposed of in household waste after consumption. If batteries or rechargeable batteries contain mercury, cadmium or lead, you will find the chemical symbol (Hg, Cd or Pb) under the symbol of the waste bin with the X through it. Every user of batteries or rechargeable batteries is legally obliged to return old batteries and rechargeable batteries. They can be returned, free of charge, to the retailer or another collection point near you. You can obtain the addresses of suitable collection points near you from your local government authority. In the case of batteries that contain more than 0.0005 percent by mass mercury, more than 0.002 percent by mass cadmium or more than 0.004 percent by mass lead, the chemical symbols of the respective harmful substance used are indicated under the waste bin symbol. The chemical symbols have the following meaning: Pb: Battery contains lead Cd: Battery contains cadmium Hg: Battery contains mercury
