Scope of delivery:  
5 ST 10-piece C470 sanding sheet set. For rotary drills/drivers |

## PRODUCT DESCRIPTION

The C470 Best for Wood and Paint has an exceptional material removal rate. The product has a calcium stearate coating that reduces clogging. Furthermore, its electrostatic open-coated surface with space between grits ensures even, controlled, consistent dust removal. This is designed to be used when sanding wood and paint, such as coatings like varnish, roughcast, filler and synthetics and solid materials such as polymers (Corian, Varicor). The product is made from a C-/B-paper, coated with tough semi-friable aluminium oxide for consistent quality. Quick changes and easy handling are possible thanks to hook-and-loop-backed fastening system.
