ROBERT BOSCH POWER TOOLS GMBH 18 V SLIDE-IN BATTERY PACK

SKU: 3165140837859

18 V slide-in battery pack

Categories: [Accessories for BOSCH professional](#), [Machine accessories](#)

Product Features: Applications: HD
Battery capacity Ah: 6,0
Cell technology: Li-Ion
Benefit HL (short): Without Memory or Lazy Battery Effect
Performance Claim Text: No Memory Effect (Version) Key RTB: ECP feature automatically reduces the power output in case of overload, deep discharge or overheating
Specific RTB1: No memory effect, the battery can be conveniently charged regardless of whether it is three-quarters or half-empty
Specific RTB2: After 30 days of inactivity the lithium-ion battery still contains 96% of its capacity due to its low self-discharge rate
Specific RTB3: Only appropriate for Li-Ion tools from the professional range in the same voltage class
Product text, Accessories grey: 18 V slide-in battery with SCM (Single Cell Monitoring) and CLI (Charge Level Indicator)
Product text, Accessories grey: Battery only appropriate for Li-Ion tools from the professional range in the same voltage class
SOL Date: 29.06.2015
Phase Out Date: 31.12.2023
Novelty: no

Scope of delivery:
1 ST 18 V slide-in battery pack |

PRODUCT DESCRIPTION

Slide-In Li-ion Battery Pack ECP (Electronic Cell Protection) and CLI (Charge Level Indicator) offers power without a memory or lazy battery effect. The ECP allows the cells in the battery to be monitored electronically so that the power output of the tool will be automatically reduced in case of an overload, deep discharge or overheating. The CLI informs the user how much more power is available by displaying the charging state. It also has a low self-discharge rate. After 30 days of inactivity the lithium-ion battery still contains 96% of its specified rated capacity. The 18 V Slide-In Li-Ion Battery Pack ECP is only appropriate for Li-Ion tools from the professional ranges in the same voltage class.
