10 ST 3-piece basic tile set. For oscillating multitools |

PRODUCT DESCRIPTION

The 3-piece Basic Tile Set provides the main accessories for tile and bathroom applications. These Starlock accessories have been carefully selected for basic tile and bathroom renovations. The three Starlock blades enclosed allow for routing grout joints between tiles, scraping mortar and plunge cutting wood and non-hardened metal. These accessories are designed particularly for work such as routing joints and smaller cutouts in soft wall tiles, scraping mortar or tile adhesive and plunge cutting in copper pipes. The Starlock Snap-In mounting system allows fast blade removal and exchange within 3 seconds without having to touch the blade. The mounting system produces the highest power transfer due to a 3-dimensional tight-fitting connection between machine and accessory.
