10 ST 3-piece basic wood set. For oscillating multitools |

## PRODUCT DESCRIPTION

The 3-piece Basic Wood Set provides the essential solutions for woodcutting. These Starlock accessories have been carefully selected for general wood applications, including cutting and plunge cutting. These applications include cutting door frames to floor length, cutting smaller mouldings, laminate or parquet, cutting recesses in furniture components and flush cutting wood, softwood and non-hardened metal. The Starlock Snap-In mounting system allows fast blade removal and exchange within 3 seconds without having to touch the blade. The mounting system produces the highest power transfer due to a 3-dimensional tight-fitting connection between machine and accessory.
