X-LOCK: no

Benefit HL (short): Smooth Drilling in Concrete

Performance Claim Text: Effortless Drilling in Concrete

(Version) Key RTB: Grooved carbide plate for smooth work without jamming

Specific RTB1: Activeteq centring tip offers drill guidance for easy starts without jarring or wandering

Specific RTB2: AWB brazing and hardening technology reduces vibration and strain on the user

Specific RTB3: Wear mark for accurate drill hole diameter. PGM-certified quality. Made in Germany

Material: Concrete

Material: Lime and sand bricks

Material: Solid brick

Material: Concrete building block

Material: Hard stone

Material: Masonry

plus-5 hammer drill bit set

SOL Date: 01.09.2012

Novelty: no

Scope of delivery:

5 ST 3-piece SDS plus-5 hammer drill bit set
6/8/10 mm. For rotary hammer drills |

PRODUCT DESCRIPTION

The SDS plus-5 Drill Bit allows for effortless drilling. For smooth work, the carbide plate is grooved and bears notches that penetrate material more easily and prevent jamming in concrete. Drill guidance for easy starts without jarring or wandering is provided by the Activeteq centring tip, which keeps the drill in place for a precise hole diameter. Furthermore, AWB brazing and hardening technology reduces vibration during drilling to minimise strain on the user. The bit is intended for use on masonry and concrete. To achieve accurate results, the visibility of the wear mark indicates if the diameter of the hole is still in tolerance for metal anchor setting. As proof of quality, the drill bit bears the test mark of the PGM Masonry Drill Bit Association Board, guaranteeing compliance with tight tolerances, exact drilling and the firm hold of fixings. It is made in Germany.
