Benefit HL (short): Customisable Set With Highly Robust Bits

Performance Claim Text: Customisable Set, Robust Bits

(Version) Key RTB: Highly robust screwdriver

bits from S2 Modified Steel, with extended torsion zone perfect for long-lasting work  
Specific RTB1: Drill bits with diamond-ground cutting edges for high wear resistance in practically all kinds of materials  
Specific RTB3: Part of the Bosch Pick and Click system enabling buildable bit pack sets for fully customisable collections  
Material: Softwood  
Material: Stainless steel  
Material: Drywall  
Material: Brick  
Material: Fibre cement boards  
Material: HPL High-pressure laminate  
Material: Plastics  
Product text, Accessories grey: 35-Piece drill and screwdriver bit set with HEX-9 MultiConstruction drill bits and Universal Holder Quick Release  
SOL Date: 01.10.2016  
Novelty: no

Scope of delivery:  
6 ST 35-piece Impact Control MultiConstruction and Screwdriver Bit Set.  
For rotary drills/drivers |

## PRODUCT DESCRIPTION

The Pick and Click MultiConstruction Drill and Impact Control Screwdriver Bit Set, 35-Pieces is a customisable set containing highly robust bits that are ideal for heavy duty applications. The screwdriver bits feature an extended torsion zone that makes them extremely sturdy for long-lasting work, even withstanding the high power of impact drivers. S2 Modified Steel and an optimised heat-treatment process provide extra-tough endurance for high performance, including in plant installations or heavy industrial work. Also included are HEX-9 MultiConstruction Drill Bits that are ideal for use in practically all kinds of materials in interior fitting work. They feature diamond-ground cutting edges for high wear resistance and a 2-flute U-shape that offers good dust removal and standard lifetime. Their carbide tip also provides an easy start and good control when drilling. The set is part of the Bosch Pick and Click system, which enables individually buildable accessory sets for fully customisable bit collections. Click-fitting slots perfectly secure individually purchased packs for a personalised collection and the easy replacement of old packs.
