6 ST 36-piece Impact Control Screwdriver Bit Set. For rotary drills/drivers |

PRODUCT DESCRIPTION

The Pick and Click Impact Control Screwdriver Bit Set, 36-Pieces is a customisable set containing highly robust bits that are ideal for heavy duty applications, even withstanding the high power of impact drivers. The bit features an extended torsion zone that makes it extremely sturdy for long-lasting work. S2 Modified Steel and an optimised heat-treatment process provide extra-tough endurance for high performance, including in plant installations or heavy industrial work. The set is part of the Bosch Pick and Click system, which enables individually buildable accessory sets for fully customisable bit collections. Click-fitting slots perfectly secure individually purchased packs for a personalised collection and the easy replacement of old packs.
