Benefit HL (short): Drilling with the Maximum Precision

Performance Claim Text: Maximum Precision (Version) Key RTB: 135-degree self-centring

split-point tip combines active cutting and perfect centring without wandering

Specific RTB1: Precision-ground bit made of HSS enables fast results

Specific RTB2: No need to pre-punch or pilot drill up to 10 mm-diameter

Specific RTB3: Manufactured to DIN 338, drill bit Type N (flute angle) with a 135-degree tip, diameter tolerance h8

Material: Steel

Material: Cast iron

Material: Metal pipes and profiles

Material: Non-ferrous metals

Material: Aluminium

Material: Plastics

Material: Metal sandwich

Material: Steel sheets

Product text, Accessories grey: 7-piece HSS-G metal drill bit set, DIN 338, 135°

Scope of delivery:

1 ST 7-piece Mini-X-Line metal drill bit set HSS-G, 135° 2 - 10 mm. For rotary drills/drivers |

PRODUCT DESCRIPTION

The HSS Twist Drill Bit Ground is for drilling through metal with maximum precision. The bit's exposed 135-degree self-centring split-point tip combines active cutting and perfect centring without wandering, delivering maximum precision. The split-point tip also eliminates any need to pre-punch or pilot drill for up to 10 mm. This precision-ground bit made of HSS (high-speed steel) enables up to 40% faster drilling rate and up to 50% lower feed pressure than standard-ground HSS drill bits with chisel edges. This bit is designed for drilling holes in alloyed and non-alloyed steel, cast steel, cast iron, sintered iron, malleable cast iron, non-ferrous metals and hard plastics. The HSS Twist Drill Bit Ground is manufactured to DIN 338. The drill bit is Type N (flute angle) with a 135-degree tip and a diameter tolerance of h8.
