Scope of delivery:

1 ST 8-piece Hex-9 Ceramic set 3 - 10 mm. For rotary drills/drivers |

PRODUCT DESCRIPTION

The HEX-9 Ceramic Tile Drill Bit performs fast drilling in tiles. High-speed drilling is made possible by the 7-sided asymmetrical diamond-ground cutting edges, which efficiently slice through materials. The 2-flute U-shape design provides effective dust removal, which allows the drill to glide through the material quickly for fast results. This drill bit is intended for work in soft-to-medium density tiles, porcelain and ceramic. Only use this drill bit at low speeds and without the impact and hammer function. No cooling is required.
