ROBERT BOSCH POWER TOOLS GMBH BEST FOR LAMINATED PANEL CONICAL SCORING BLADE. FOR VERTICAL PANEL SIZING SAWS

SKU: 3165140666626

Best for Laminated Panel conical scoring blade. For vertical panel sizing saws

Categories: [Accessories for BOSCH professional](#), [Saws](#)

Product Features: Outer diameter mm: 125

Bore size mm: 20

Width of cut (b1) mm: 3,1

Base blade thickness (b2) mm: 4,3

Width of cut (b1) mm / Base bl. thickness (b2) mm: 3.1/4.3

Number of teeth: 24

Tooth shape: ATB (Con)

Max. rotation speed (RPM): 12000

Cutting result: 4

Hook angle °?: 0

Relief angle °?: 15

Benefit HL (short): Industrial-Quality Precision for Very Demanding Applications in Laminated Panels

Performance Claim Text: Industrial-Quality Precision

(Version) Key RTB: Ideal for laminated panels coated on one or two sides

Specific RTB1: Unique extra-hard Microteq teeth (Bosch in-house produced) consist of durable carbide grains and provide high performance

Specific RTB2: Cleanteq coating reduces residue adhesion to ensure clean results while preventing corrosion and keeping the blade cool

Specific RTB3: ATB-Con tooth geometry delivers clean cuts in all kinds of wooden materials and laminated panels

Material: Plastic coated boards

Material: Laminate flooring

SOL Date: 16.09.2011

Novelty: no

Scope of delivery:

1 ST Best for Laminated Panel conical scoring blade. For vertical panel sizing saws |

PRODUCT DESCRIPTION

The Best for Laminated Panel Conical Scoring Blade delivers industrial-quality precision for very demanding applications in laminated panels that are coated on one or two sides. Its high performance and quality are strengthened by the blade's unique extra-hard Microteq teeth that are manufactured in-house by Bosch and consist of durable carbide grains. Additionally, the blade's Cleanteq coating reduces the adhesion of such residues as resin and glue to ensure clean results while also preventing corrosion and keeping the blade cool. This conical scoring blade is intended for cutting chipboard, panel materials and veneered laminate. The product features ATB-Con (alternate tooth bevel on a conical scoring blade) tooth geometry, delivering clean cuts in all kinds of wooden materials and laminated panels.
