Weight: 2 kg

Product category subdivision: Charger

Positioning: Continuous charging for non-stop work - multi-bay charger with 6 battery interfaces

User benefit incl. Reason to believe: Fast charging speed with 8A current -

ProCORE18V 8.0Ah charges to 80% in 42 min

User benefit incl. Reason to believe: Efficient charge - 2 charging cycles ensure continuous work

User benefit incl. Reason to believe: Priority Start Button - easy prioritisation of a selected battery

## PRODUCT DESCRIPTION

Charger GAL 18V6-80, The GAL 18V6-80 offers continuous charging on the job or overnight in two cycles. The first cycle charges up to six batteries sequentially up to 80%. Cycle two then completes the process, charging all batteries to 100%. Thanks to an 8A charging current, ProCORE18V 8.0Ah batteries load up to 80% in just 42 minutes. Charge-level indicators with 5 LEDs on each charging interface display precise charging progress. With a Priority Start Button for each interface, the cycle can be interrupted to start charging the selected battery immediately. It is compatible with all Bosch Professional 18 V batteries (Professional 18V System). Fixing the multi-bay charger to an L-BOXX avoids potentially harmful movements when transporting. The charger's handle features pegs that allow its cable to be wound neatly in place for storage and safe transportation. Cardboard box; L-BOXX adapter for GAL 18V6-80
