PRODUCT DESCRIPTION

The Expert for Laminated Panel Hand Circular Saw Blade delivers smooth surface cuts in laminate panels. The blade's combination of especially hard carbide and an ATB (Alternate Top Bevel) shape leaves smooth surfaces that require little to no sanding while maintaining the blade for the long lifetime a professional would expect. Its lifetime is also strengthened by the blade's Protection coating that prevents corrosion and delivers reliable cutting while reducing friction. Additionally, this product is specially designed with anti-vibration slots for particularly smooth cutting, considerably less noise and significantly reduced vibration. Use this saw blade in chipboard, panel materials and veneered laminate. The Expert for Laminated Panel Hand Circular Saw Blade has an ATB (Alternate Top Bevel) tooth geometry, delivering clean cuts in all kinds of wooden materials and laminated panels.
