PRODUCT DESCRIPTION

The Construct Wood Circular Saw Blade is durable when cutting construction site timber with nails and concrete residues. Its high-quality precision-ground carbide teeth make the blade robust for tough applications. Moreover, its expansion slots lower vibration during use, which dampens noise and reduces heat development. The blade features a base blade made of dimensionally stable SK5 hardened steel (> 40 HRC) which ensures accuracy. Use this saw blade in construction timber with nails and concrete residues.
