Product category subdivision: Cordless Drill/Driver
Positioning: When strength counts - the clever drill driver for unrivalled power and control
Long version part 1: The GSR 18V-150 C Professional is the clever drill driver with unrivalled performance and control for a wide range of screwing and drilling tasks. It is the perfect choice for enormously fast work progress due to exceptionally powerful ProCORE18V batteries and a brushless motor with BITURBO technology, while offering a maximum torque of 150 Nm. Its precise Electronic Angle Detection always ensures the right angle of long screws and its switchable KickBack Control for working with hole saws reduces the risk of sudden rotational torque reaction in a bind-up scenario. Thanks to a metal drill chuck and metal gearbox, the drill driver is extremely reliable and robust in every workspace.
Long version part 2: The GSR 18V-150 C Professional shows optimal results when screwing and drilling in wood and metal, especially for drilling large diameters, e.g., hole saws up to 150 mm.
Long version part 3: The drill driver is compatible with all Bosch Professional 18V batteries and chargers (Professional 18V System), for maximum power use ProCORE18V ? 5.5 Ah.
User benefit incl. Reason to believe: Enormously fast work progress due to ProCORE18V batteries and a powerful brushless motor with a maximum torque of 150 Nm
User benefit incl. Reason to believe: Unmatched control at every step due to precise Electronic Angle Detection and switchable KickBack Control
User benefit incl. Reason to believe: Metal drill chuck and metal gearbox for more reliability and robustness
