PowerSAVE mode is switched on. This significantly extends the runtime and increases the number of screws per battery charge, compared to a switched off PowerSAVE mode. For fast and easy working, its retractable depth stop eliminates the need to remove the depth stop for unscrewing the screws by keeping depth setting unchanged. Its slim shape and less than 1 kg weight ensure excellent handling.
Long version part 2: The GTB 18V-45 Professional is designed for fastening drywall screws up to 6 mm. It is compatible with all Bosch Professional 18 V batteries and chargers (Professional 18V System) as well as with Bosch Professional screw gun magazine attachments.
Long version part 3: It features Electronic Motor Protection (EMP), motor brake, lock-on button, belt clip, and reverse mode.
User benefit incl. Reason to believe: PowerSAVE mode significantly increases the number of screws per battery charge
User benefit incl. Reason to believe: Additional comfort due to its retractable depth stop for unscrewing the screws by keeping the depth setting unchanged
User benefit incl. Reason to believe: Excellent handling and comfort thanks to slim shape and less than 1 kg weight
Long version part 1 (BE): The GTB 185-LI Professional cordless screw driver is lightweight and ergonomically built for extended comfort on all-day jobs. Designed with user comfort as a priority, the slim-body screw gun construction, weighing less than 1 kg (w/o battery), is achieved by an advanced in-line drivetrain system. The innovative PowerSAVE mode extends the runtime and enables 3X more screws per charge compared to non PowerSAVE drywall tools with less job interruption. The power tool´s lifetime is boosted by Bosch´s specially designed dust protective seal, reducing dust intrusion and breakage.
Long version part 2 (BE): This screwdriver with 4,500 rpm power output is ideal for efficient drywall installation and accurately
