## PRODUCT DESCRIPTION

Cordless Impact Driver GDR 18V-210 C, The GDR 18V-210 C Professional impact driver with a 1/4 hexagonal bit holder delivers powerful performance while preventing damage to materials. Two default modes on the user interface, selftapping screw (A) and wood screw (B), mean more control and less broken or stripped off screwheads, worn-out threads, and damaged workpieces by slowing down or shutting off the impact driver. Each mode is customisable via the Bosch Toolbox App. Strong and precise, this cordless impact driver unleashes 210 Nm tightening torque. Three speed/torque settings ensure impressive control and greater flexibility on the job. This impact driver is the power tool of choice for many applications, whether driving selftapping or wood screws. It is compatible with all Bosch Professional 18 V batteries and chargers (Professional 18V System). The GDR 18V-210 C Professional comes with a status indicator, LED light, and belt clip for greater convenience. Cardboard box
