## PRODUCT DESCRIPTION

Cordless Nailer GNH 18V-64, The GNH 18V-64 Professional cordless finish nailer is the mobile solution for quick and precise fastening of softwood, hardwood or composite material. This cordless nailer doesnt need a compressor, an air hose or an expensive gas cartridge - just start your work by simply inserting the battery. When the nail magazine is empty, the workpiece is protected from damage by dry-fire lockout. For highest accuracy, the countersink depth of the GNH 18V-64 can be adjusted precisely. Its applications are trim work on baseboards, window and door casings, chair nails, and staircases and mouldings made of softwood (i.e., pine), hardwood (i.e., oak, maple, birch) and composite trim materials. It is compatible with all Bosch Professional 18 V batteries and chargers (Professional 18V System). The GNH 18V-64 Professional has a single activation firing mode using brad head nails with a diameter of 1.6 mm and a length up to 64 mm. The new design of the cordless nailer allows users to conveniently lay it down during work interruptions. L-BOXX 136 (1 600 A01 2G0)
