PRODUCT DESCRIPTION

Cordless Rotary Hammer with SDS plus GBH 18V-28 DC, The GBH 18V-28 DC Professional is Boschs powerhouse in the D-handle rotary hammer class: It delivers powerful performance, even stronger than the corded GBH 2-28, with its brushless motor, providing 3.4 J of impact energy and an optimised power-to-weight ratio of 1.1 J/kg. For highly convenient, dustless drilling, the additional and extremely lightweight GDE 28 D Professional dust extractor, that features a filter cleaning mechanism for constant suction power, can be easily attached. Additionally the GBH 18V-28 DC offers Vibration Control and KickBack Control, which senses sudden loss of tool control. In case of e.g. a canted drill, it instantly shuts the rotary hammer down in order to minimise hand and arm injuries. This rotary hammer is perfect for hammer drilling in concrete, stone and masonry and thanks to its D-handle design ideal for vertical and downward drilling. Additionally the GBH 18V-28 DC is compatible with all Bosch Professional 18V batteries and chargers (Professional 18V System). The GBH 18V-28 DC Professional is connected-ready for integration into the Bosch Toolbox App and features a tool hook for hanging the rotary hammer during interruptions at work. 1 x XL-BOXX (1 605 438 1GL); Auxiliary handle (2 602 205 141); Depth gauge (1 613 001 009); Cleaning cloth (1 619 200 413)
