ROBERT BOSCH POWER TOOLS GMBH CUP BRUSH 75X1 MM NYLON BRISTLE. FOR ROTARY DRILLS/DRIVERS

SKU: 3165140082105

Cup Brush 75x1 mm Nylon Bristle. For rotary drills/drivers

Categories: Accessories for BOSCH professional, Cutting, roughing and brushing

Product Features: Diameter mm: 75
Wire thickness mm: 1,00
Max. speed rpm: 4.500
Securing: Straight shank
Material: Nylon wire with coated abrasive SiC/grit 80
X-LOCK: no
Benefit HL (short): Fine Finish on Various Materials
Performance Claim Text: Fine Finish on Various Materials
(Version) Key RTB: Aluminium oxide K80-coated nylon bristles adapt perfectly to workpiece's contours
Specific RTB1: Consistent material removal due to the abrasive coatings continuous release of abrasive grain with use
Specific RTB2: Removing rust/paint on small to medium surfaces; smoothing, mat sanding, cleaning metal/PVC/wood, texturing wood
Specific RTB3: Available in different thicknesses. Thicker wires deliver a coarser yet faster finish; thinner wires for finer results
Material: Steel
Material: Hardwood
Material: Softwood
Material: Plastics
Material: Concrete building block

brush - Nylon bristle with aluminium oxide coated abrasive K80
Product text, Accessories grey: **Suitable for** paint stripping, removing rust, smoothing, matt sanding and cleaning wood, metal and PVC on smaller to medium surfaces, texturing wood.
Product text, Accessories grey: Adapts perfectly to the contours of the workpiece, without severely altering the surface.
Product text, Accessories grey: Works at constant material removal rate because abrasive grains are continuously released.
SOL Date: 01.04.2012
Novelty: no

Scope of delivery:
1 ST Cup Brush 75x1 mm Nylon Bristle. For rotary drills/drivers |

PRODUCT DESCRIPTION

The Wire Cup Brush provides a good fine finish on various materials without damaging the surface. It is fitted with aluminium oxide K80-coated nylon bristles that adapt perfectly to the workpiece's contours. Consistent material removal is ensured as the abrasive coating continuously releases abrasive grain with use. This Wire Cup Brush is suitable for cleaning work such as removing rust on small to medium metal surfaces. It is also suitable for removing paint, smoothing, matt sanding and cleaning metal, PVC and wood. Moreover, it can be used for texturing wood. Brush wires are available in different thicknesses for variable levels of abrasive needs. Thicker wires are more aggressive, producing a coarser yet faster surface finish, while thinner wires deliver finer, smoother surface results.
