PRODUCT DESCRIPTION

The Clean for Inox Wire Cup Brush provides an extra-fine surface finish. Fitted with crimped wire for light- to medium-duty cleaning applications, the wire cup brush is suitable for cleaning work such as removing coatings and rust. It is ideal for use on medium to large stainless steel, aluminium and non-ferrous metal surfaces, and is also suitable for roughing, matt sanding, paint stripping and texturing. Brush wires are available in different thicknesses for variable levels of abrasive needs. Thicker wires are more aggressive, producing a coarser yet faster surface finish, while thinner wires deliver finer, smoother surface results.
