Cup Brush Crimped 70 brass-coated. For small angle grinders

---

**Categories:** [Accessories for BOSCH professional](#), [Cutting, roughing and brushing](#)

**Product Features:** Diameter mm: 70  
Wire thickness mm: 0,30  
Max. speed rpm: 12.500  
Thread M: 14  
For angle grinders, min. diameter (mm): 115  
Securing: Thread  
Material: Crimped wire, brass coated  
X-LOCK: no  
Benefit HL (short): Extra-Fine Finish on Metal  
Performance Claim Text: Extra-Fine Finish  
(Version) Key RTB: Brass-coated crimped wire for light- to medium-duty cleaning applications  
Specific RTB1: Suitable for removing coatings, rust and paint stripping on medium to large metal and non-ferrous metal surfaces  
Specific RTB2: Suitable for roughing, mat sanding, cleaning formwork boards. Brass-coated wires provide corrosion protection  
Specific RTB3: Available in different thicknesses. Thicker wires deliver a coarser yet faster finish; thinner wires for finer results  
Material: Non-ferrous metals  
Material: Steel  
Material: Metal pipes and profiles  
Material: Aluminium

1 ST Cup Brush Crimped 70 brass-coated. For small angle grinders |

## PRODUCT DESCRIPTION

The Clean for Metal Wire Cup Brush delivers an extra-fine surface finish. The wire cup brush is fitted with brass-coated crimped wire for light- to medium-duty cleaning applications. It is suitable for removing coatings, rust and paint stripping on medium to large metal and non-ferrous metal surfaces. This wire cup brush is also suitable for roughing, matt sanding, cleaning formwork boards and facings. The brass-coated wires on the brush provide protection against corrosion. Brush wires are available in different thicknesses for variable levels of abrasive needs. Thicker wires are more aggressive, producing a coarser yet faster surface finish, while thinner wires deliver finer, smoother surface results.
