1 ST Cup Brush Crimped 75 brass-coated. For small angle grinders |

PRODUCT DESCRIPTION

The Clean for Metal Wire Cup Brush delivers an extra-fine surface finish. The wire cup brush is fitted with brass-coated crimped wire for light- to medium-duty cleaning applications. It is suitable for removing coatings, rust and paint stripping on medium to large metal and non-ferrous metal surfaces. This wire cup brush is also suitable for roughing, matt sanding, cleaning formwork boards and facings. The brass-coated wires on the brush provide protection against corrosion. Brush wires are available in different thicknesses for variable levels of abrasive needs. Thicker wires are more aggressive, producing a coarser yet faster surface finish, while thinner wires deliver finer, smoother surface results.
