ROBERT BOSCH POWER TOOLS GMBH EXPERT FOR MULTI MATERIAL CIRCULAR SAW BLADE. FOR MITRE SAWS

SKU: 3165140650113

Expert for Multi Material circular saw blade.
For mitre saws

Categories: [Accessories for BOSCH professional](#), [Saws](#)

Product Features: Outer diameter mm: 305
Bore size mm: 30
Width of cut (b1) mm: 2,4
Base blade thickness (b2) mm: 1,8
Width of cut (b1) mm / Base bl. thickness (b2) mm: 2.4/1.8
Number of teeth: 96
Tooth shape: TCG
Max. rotation speed (RPM): 6200
Cutting result: 4
Hook angle °?: -5
Relief angle °?: 15
Benefit HL (short): Perfect Reliable Cuts in a Wide Range of Materials
Performance Claim Text: Perfect Reliable Cuts
(Version) Key RTB: Microteq teeth (in-house produced) from high-density carbide combined with robust tooth shape ideal for universal use
Specific RTB1: Performance supported by Protection coating that prevents corrosion and reduces friction
Specific RTB2: Anti-vibration slots for particularly smooth cutting, considerably less noise and significantly reduced vibration
Specific RTB3: HLTG (High-Low Triple Chip Ground) teeth make the blade robust for working with abrasive materials
Material: Aluminium

Material: Plastics
Material: Medium density fibreboard
Material: Chipboard
Material: Non-ferrous metals
Material: Hardwood
Material: Solid wood
Material: HPL High-pressure laminate
Material: Plastic coated boards
Material: Plywood
Material: Particleboard
Material: Aluminium Composite Panel
SOL Date: 16.08.2011
Novelty: no

Scope of delivery:
1 ST Expert for Multi Material circular saw
blade. For mitre saws |

PRODUCT DESCRIPTION

The Expert for Multi Material Circular Saw Blade performs perfect reliable cuts in a wide range of materials. Its unique extra-hard Microteq teeth from Bosch in-house production consist of highly durable carbide grains, enabling a high performance. The combination of this specialised high-density carbide and the robust tooth shape make the Expert for Multi Material Circular Saw Blade ideal for universal use in any situation. The blade's Protection coating prevents corrosion and delivers reliable cutting while reducing friction, further supporting its cutting quality. Additionally, it is specially designed with anti-vibration slots for particularly smooth cutting, considerably less noise and significantly reduced vibration. Use this saw blade in non-ferrous metals, aluminium, plastics, epoxy and wood. HLTCG (High-Low Triple Chip Ground) teeth make the Expert for Multi Material Circular Saw Blade robust for working with abrasive materials.
