PRODUCT DESCRIPTION

The Expert for Sandwich Panel Circular Saw Blade offers a smooth performance in sandwich panel materials. A special tooth shape allows for cutting with ease through sheet steel, while keeping the connection between steel layers and insulation materials. The high-performance blade features unique extra-hard Microteq teeth that are manufactured in-house by Bosch from highly durable carbide grains. This performance is further supported by the blade's Protection coating that prevents corrosion and delivers reliable cutting while reducing friction. Additionally, this product is specially designed with anti-vibration slots for particularly smooth cutting, considerably less noise and significantly reduced vibration. Use this saw blade in sandwich panels with steel layers. The MTCG (Multi-Purpose Triple Chip Grind) tooth configuration of the Expert for Sandwich Panel Circular Saw Blade ensures a long lifetime even in tough applications.
