PRODUCT DESCRIPTION

The Expert for Wood Laminate Flush Trim Bit is designed for a long lifetime of heavy everyday use in delivering splinter-free cuts when flush trimming. The bit is manufactured in-house using unique Microteq carbide for high durability and performance in wooden applications. It also features a Proteqtion coating that protects it from friction, rust and pitch build-up, which extends the bit's superior cutting lifetime. It is intended for flush trimming laminated and protruding material such as laminated or veneered panels in soft and hard solid wood and wooden composites as well as special materials like solid surface. The bit is also ideal for working with templates. The ball bearing allows for easy guiding directly on the workpiece without a side fence.
