PRODUCT DESCRIPTION

The Expert for Wood Rounding Over Bit is designed for a long lifetime of heavy everyday use in delivering splinter-free cuts. The bit is in-house manufactured using unique Microteq carbide for high durability and performance in wooden applications. It features a Proteqtion coating that protects it from friction, rust and pitch build-up, which extends the bits superior cutting lifetime. Furthermore, the bits sheer angle design delivers a shearing cut for especially clean surfaces for minimal resanding. The Expert for Wood Rounding Over Bit is intended for easy-guided edge rounding and decorative applications in soft and hard solid wood, wood composites and special materials like solid surface. The ball bearing allows for easy guiding directly on the workpiece without a side fence. Furthermore, ball bearing size changes enable this router bit for use on various roundover profiles.
