EXPERT Hardwood 2-side clean T 308 BF Jigsaw Blade 25-pc. For jigsaws

Categories: Accessories for BOSCH professional, Saws

PRODUCT DESCRIPTION

High Precision Tear-Free Cutting Laminated Worktops! Combines hard teeth and flexible body through Bi-Metal welding. Ensuring the clean side of a jigsaw cut is on the visible part of the work material has always been an art among joiners and woodworkers. Sometimes you can turn the workpiece over, other times the jigsaw itself can be held upside down. Or you could use the EXPERT Hardwood 2-side clean, that offers a perfect tear-free cut on both sides thanks to its counter-directed teeth. Made from Bi-Metal - a strip of high-speed steel bonded onto a flexible steel blade to combine strength and flexibility - the Bosch EXPERT Hardwood 2-side clean Jigsaw Blade is robust enough to cut laminated chipboard kitchen tops or hardwood. Available for tear-free straight cuts (T308BF) and for particularly accurate angle tear-free cuts (T308BFP) Cuts tear-free on both sides with 2-Side Clean Geometry.
