Categories: Accessories for BOSCH professional, Saws

PRODUCT DESCRIPTION

Long Life Cutting Tough Building Materials! Progressive tooth pitch to cut material of every thickness. Many blades advertised as being for multi material are fine in wood and soft metal, but fail to cut tougher elements like screws or metal fittings. The EXPERT Multi Material has no such problems: its carbide teeth can cut the hardest grades of steel - again and again. Because the Bosch EXPERT Multi Material Reciprocating Saw Blade lasts so much longer and performs in every material, it is of great value for professionals, who gain in productivity as well as saving on blades. Exceptional durability is built in with Bosch Carbide Technology.
