Novelty: no
Novelty until: 01.08.2021

Scope of delivery:
1 ST EXPERT Sanding Finger Coarse AVZ 32
RT4 Multitool Sanding Plate 32 x 50 mm. For
oscillating multitools |

PRODUCT DESCRIPTION

Long Life Sanding Tight Gaps! Easy cleaning to maintain best performance. Tight gaps in decking, window shutters or old staircases are really difficult to sand by hand - and you usually end up getting a splinter in your fingers. With the EXPERT Sanding Finger, this kind of sanding is easy: the thin, pointed blade squeezes into the smallest spaces and sands quickly and effectively with its high quality carbide grit. Bosch EXPERT sanding fingers are a great time-saver for anyone needing to sand in tight spaces. The coarse, open grains of the RT4 (grit size 40) remove material such as paint with minimum clogging; while the finer grain RT10 (grit size 100) is ideal for sanding and preparing clean wood surfaces. Exceptional durability is built in with Bosch Carbide Technology.
