RT10 MULTITOOL BLADE 116 MM. FOR
OSCILLATING MULTITOOLS**

SKU: 4059952531038

EXPERT Sanding Plate MAVZ 116 RT10
Multitool Blade 116 mm. For oscillating
multitools

Categories: [Accessories for BOSCH professional](#), [Accessories for multifunctional tools](#)

Product Features: Material: Carbide RIFF
Diameter [mm]: 116
Grit: 100
Performance Claim Text: Long-Lasting
Sanding with Carbide Technology
Short description (small): Delta shape
reaches corners while sanding efficiently.
Short description (small): Easy cleaning to
maintain best performance.
Short description (small): Sands the
narrowest gaps with this extra-thin blade.
Material: Hardwood
Material: Softwood
SOL Date: 01.05.2021
Novelty: no
Novelty until: 01.08.2021

Scope of delivery:
1 ST EXPERT Sanding Plate MAVZ 116 RT10
Multitool Blade 116 mm. For oscillating
multitools |

PRODUCT DESCRIPTION

Long Life Sanding Multi Material! Delta shape reaches corners while sanding efficiently. Small but tough sanding jobs to remove old material and prepare surfaces for working can be almost impossible with

conventional sanders or by hand. Even if you can reach the surface, these jobs destroy sandpaper. With the EXPERT Sanding Plate however, you can reach corners and sand difficult materials with your oscillating multitool. The coarse, open grains of the RT2 (grit size 20) are best for removing mortar behind tiles; removing carpet adhesive; or rough shaping of wood. The RT4 (grit size 40) is best for removing thick paint but can also tackle mortar and glue if required. The RT6 (grit size 60) is the paint specialist, while the RT10 (grit size 100) is ideal for sanding and preparing clean wood surfaces. Exceptional durability is built in with Bosch Carbide Technology.
