The 20 Degree 1.6/16g Finish Nails are designed for use within indoor usage class 1 (DIN EN 1995-1-1). The nails are galvanised for corrosion protection, making them suitable for case construction, upholstery, door and window frames, picture frames, furniture manufacture, wall coverings and for fibre plasterboard. These nails provide a firm hold with heads that are barely visible, which allows for the easy and rapid fitting of covering and skirting boards and decorative strips. Manufactured in Europe, the 20 Degree 1.6/16g Finish Nails have a consistently high quality.
