1 ST Full head strip nail SN21RK 60. For nail guns |

PRODUCT DESCRIPTION

The 21 Degree Full Head Strip Nails are designed for tasks within indoor usage class 1 (DIN EN 1995-1-1). The nails are galvanised for corrosion protection. Additionally, a resin coating allows the nails to be more easily driven into the material for better penetration and a strong hold. Their 21-degree collation angle and grooved shank shape ensure durable and secure connections in wood, roof, case and pallet construction as well as on door, window and furniture frames. The 21 Degree Full Head Strip Nails are manufactured in Europe for consistently high quality.
