ROBERT BOSCH POWER TOOLS GMBH GRINDING WHEEL FOR DOUBLE-WHEELED BENCH GRINDER. FOR BENCH GRINDERS

SKU: 3165140084826

Grinding wheel for double-wheeled bench grinder. For bench grinders

---

Categories: Accessories for BOSCH professional, Cutting, roughing and brushing

Product Features: Specification: A 60 P4 V6
Disc diameter mm: 175
Thickness (b1) mm: 25
Bore diameter mm: 32,00
Grit: 60
X-LOCK: no
Benefit HL (short): Comprehensive Grinding with Coarse to Fine Results
Performance Claim Text: Comprehensive Grinding
(Version) Key RTB: Separate fine- and coarse-grit wheels designed for the different requirements of various blades and drill bits
Specific RTB1: High removal rate enables faster blade and bit re-sharpening
Specific RTB2: Premium vitrified bonded aluminium oxide grain wheels in fine grit for fine grinding and coarse grit for coarse grinding
Material: Steel
Material: Tough steel
Material: Cast iron
Material: Metal pipes and profiles
SOL Date: 19.07.2002
Novelty: no

Scope of delivery:
1 ST Grinding wheel for double-wheeled bench grinder. For bench grinders |

PRODUCT DESCRIPTION

The Grinding Wheels for Double-Wheeled Bench Grinders provide comprehensive grinding with coarse to fine results on several materials. It features a separate grinding wheel on either end, each made with a different grit for the various requirements of several blades and drill bits. The fine grinding wheel is made of premium vitrified bonding with fine aluminium oxide grain, while its coarse-grained twin is suited for coarse or pre-grinding. Moreover, the wheel's high removal rate enables faster and easier blade and bit re-sharpening. It is intended for fine grinding and re-sharpening hardened and non-hardened steel twist drill bits, planer blades, chisels, scrapers, punches and lawn mower blades. It is also ideal for coarse and pre-grinding hardened and non-hardened steel and wood chisels, planer blades, chisels and axes.
