## PRODUCT DESCRIPTION

Hand-Held Circular Saw GKS 55+G, Despite its compact design, the compact GKS 55+ G Professional achieves a high cutting capacity even where it is normally only possible with much larger saw blades. The two-stage gearbox ensures high cutting capacities with cuts as deep as 63 mm. In combination with Bosch's guide rail system, the circular saw delivers precise sawing results in all kinds of wood and derived lumber products like OSB, plywood, and MDF. Additional user protection is provided by the fast braking system. Especially when long and precise cuts in solid wood and derived lumber products like OSB, plywood, and MDF are required, this circular saw delivers accurate results. It is compatible with the Bosch guide rail system and with the guide rail systems of Mafell, Festool, and Makita. The GKS 55+ G Professional is equipped with an air blower function for a better view of the workpiece, a dust port connector, and also an aluminium die-cast footplate and a spindle lock Cardboard box; 1 x circular saw blade, Standard for Wood speed, 165 x 1.7 x 20 mm, 12 (2 608 642 600); Internal hexagon; Parallel guide (1 608 190 007); Vacuum adapter
