PRODUCT DESCRIPTION

Hand-Held Circular Saw GKS 55+GCE, The compact GKS 55+ GCE Professional achieves a high cutting capacity even where it is normally only possible with much larger saw blades. In a wide range of material, the circular saw reaches a cutting depth of 63 mm thanks to its two-stage gearbox. It also runs smoothly on the Bosch guide rail system and can be guided perfectly for accurate sawing. The electronic speed control allows variable speed for working with a wide variety of materials. Accurate results in sawing different wood materials such as derived lumber products like OSB, plywood, or MDF. It is compatible with the Bosch guide rail system and also with the rail systems of Mafell, Festool, and Makita. The GKS 55+ GCE Professional features an air blower, dust port connector, aluminium die-cast footplate, constant speed, fast motor brake, soft start, and spindle lock. Internal hexagon; Cardboard box; 1 x circular saw blade, Standard for Wood speed, 165 x 1.7 x 20 mm, 12 (2 608 642 600); Parallel guide (1 608 190 007); Vacuum adapter
